WHO WE ARE

SUPERSTITION

MEADERY

We are based in the beautiful mountain town of Prescott, Arizona where we produce amazing mead and cider. We offer the highest quality core brands in our category, backed by seasonals and barrel aged releases.

We have relationships with national chains and a reputation that gets independents excited to be early adopters in new markets.

You can take a look inside our Production Facility & Prescott Tasting Room on our YouTube Channel:

WORLD CLASS MEAD • CIDER

From the very beginning we have been following a path instilling excellence and quality into everything we do.

We also recognize the changing craft landscape, and we offer exclusively Gluten Free options made with healthy ingredients, ideally suited for today's consumers.

We collaborate with, exchange barrels amongst, and pour alongside the most reputable businesses in the craft beverage industry.

We are known for making the most full-flavored mead and cider in the world, but our portfolio has evolved to offer accessible 12 oz cans and kegs of delicious session meads and ciders. From the magical meads resting in our barrel room, to our daily drinking options, from backyard BBQs to Michelin starred restaurants, Superstition is always the right choice for any occasion.
